In November 2018, the Hyattsville CDC installed 15 artist-designed anti-graffiti wraps to traffic control boxes across the Hyattsville area. These mini murals not only beautify our community, but detract from graffiti and other signs of urban blight. This project was years in the making, and the reaction has been overwhelmingly positive to our whimsical wraps.

They're not simply beautiful; they promote foot traffic, prevent unwanted vandalism, and make Hyattsville a better place to live, work, and shop.

However, these wraps do need periodic monitoring, maintenance, and the occasional cleaning to optimally fulfill their purpose. Help us manage and ultimately expand this community investment by donating to our Art Wrap Fund.

More traffic boxes are on our list of locations to beautify, and we've kept a few very special designs in reserve until we have enough funding to expand the project.
